Estate Circular No.01/2011

15 September 2011

Temporary Cargo Delivery Arrangement during the Period of Lift Improvement Works in Hong Kong Scout Centre

The Association has commenced the project of energy saving works and lift improvement works in the Hong Kong Scout Centre since mid 2010. To maintain normal operations of the B P International House, noisy works are conducted between 11:00 a.m. and 5:00 p.m. only and there is no works during the peak season. Thus, works period will be extended. To tackle the wear and tear and other issues arising from the extended usage of the Centre, the lift improvement work has started since May 2011.

Cargo lift improvement works will commence on 7 November 2011 and its service will be suspended thereafter. The works is scheduled to be completed in 5 months until April 2012. In this circumstance, units and users have to arrange cargo delivery to loading/unloading bay at basement by using the Guest Lifts (No.5 / No.6) as follows:

Weekdays

10:00 am to 12:00 noon

3:00 pm to 5:00 pm

Saturdays

10:00 am to 12:00 noon

Sundays & public holidays

3:00 pm to 5:00 pm

When handling cargo delivery, units and users are reminded not to use heavy gears (such as metal wheel trolley, hand pallet truck and pallet etc). Also necessary protection shall be provided to prevent damage to interior fitting out and lift features.

Should there be any enquiry, please contact Mr Jason WU, Assistant Scout Executive (Estate) at 2957 6382.

Agnes LEE
Assistant Chief Commissioner (Estate)
