

Asia-Pacific Regional Scout Foundation – Membership

Over the past century, Scouting has been universally recognized as a Movement that offers non-formal education to help young people develop the knowledge, skills and attributes that will enable them to become responsible, self-reliant citizens and tomorrow's leaders.

There are 17 million Scouts in Asia-Pacific Region which constitutes 68% of the world's total Scouts. A vast population of young people is still to be reached. What could be a more fitting way to show your commitment to the education and well-being of tomorrow's generation through Scouting than by becoming a member of the Asia-Pacific Regional Scout Foundation?

The Asia-Pacific Regional Scout Foundation founded in 1991, is the most important source of providing sustainable support to the development of young people and the community. Its members include prominent businessmen, government and Scout Leaders who want to help bring better Scouting to more young people. You are certainly one such leader and we are inviting you to become a member of the Foundation – there are 5 classifications:
