

WOSM Policies and Reference Materials

“The Key to Retention in Scouting”

The World Organization of the Scout Movement (WOSM) formulates policies and reference materials from time to time to provide guidelines and directions for National Scout Organizations, with the ultimate goal of achieving the mission of the World Scout Movement.

In light of the pandemic situation, it has not been possible for face-to-face Scouting activities to be held, and this unavoidably would lead to loss of membership. To cope with this problem, the World Scout Bureau has issued “The Key to Retention in Scouting”, so as to suggest ways in improving membership retention in National Scout Organizations around the world.
