

Go Hiking x Clean Trails

Scout Movement emphasizes on the development of constructive contact with nature. Through the use of nature, scouts not only equip with different wilderness living skills, but also develop their physical, intellectual, emotional, social and spiritual potentials in full due to the immense possibilities that the natural world offers. “Go Hiking” Campaign (The Campaign) has been launched since 2014 for encouraging our scouts to enjoy the nature and appreciate its beauty. Around 10,000 scouts have completed our designated hiking routes under the Campaign since then.

To echo the WOSM Earth Tribe initiative, we incorporate the concepts of “Reduce” and “Reuse” into the Campaign, by encouraging participants to use reusable container/bags and bottle for food and water, and clean up the trails when hike. Let’s join together to create a better world.

All participants could obtain a hiking stick medallion which is specifically designed for each route, after completing the journey and reported to us by just a few simple steps (For details, please refer to paragraphs below). Moreover, if you could show us your efforts in cleaning trails by designated method, a special design “Clean Trails” souvenir badge will be given to you.
